

Dear Parent or Guardian,

Cardinal Kids considers the health and well-being of our students a priority. With that in mind, we are hosting school **COVID-19 VACCINE AND BOOSTER** clinics for your eligible children ages 5-18.

Registration: Parents/guardians may register their children by **contacting their child's school nurse. There will be no cost to you for this vaccine, although your health plan may be billed, please bring their insurance card. Your health plan cannot charge you a co-pay.**

Consent: Vaccination is optional. If you choose to have your child vaccinated, a parent or guardian will need to be present with your child at the time of vaccination and wait 15 minutes with them after they receive the vaccine.

If your child is getting their second COVID-19 dose, please bring their vaccination card with them on the clinic day. If you do not have or cannot find your child's vaccination card, please let their school nurse know.

Vaccine Recommendation: It is very important to make sure your child is up to date on their routinely recommended vaccines, including those that may have been missed during the pandemic. Cardinal Kids is also happy to offer these routine childhood vaccines at ages 5, 11, and 16. This will help them keep up with normal activities such as in-person learning, sports, and visiting friends. We also offer sports physicals, well child and sick visits.

Questions: If you have questions or concerns about vaccines, please call your child's school nurse.

Sincerely,

Cardinal Kids
